Steam Mop

AENO SM1

The steam mop is your ultimate cleaning companion, offering chemical-free cleaning and 110°C disinfection for a healthier home environment. The addition of 8 accessories including a shoulder strap keeps your hands free for effortless maneuvering and making the device suitable for obviously and cleaning task.

Not just limited to floors, this versatile device easily tackles hard-to-reach areas, windows, mirrors, and even works as a clothes steamer. Deep grease stains are no match, and it efficiently disinfects working surfaces for added peace of mind.

Designed for convenience, the steam mop features a user-friendly touchscreen interface and offers two steam power modes to suit different surfaces. Despite its powerful performance, it remains ultralight at just 1.3 kg, making it easy to handle and maneuver around your home for up to 38 minutes on one full water tank.

Robot Vacuum Cleaner

AENO RC2S | RC3S

Operating via the AENO app, you can effortlessly manage cleaning sessions from anywhere in the world, ensuring your home remains pristine at all times.

Equipped with a set of sensors, including LiDAR and infrared, as well as collision, anti-fall, gyroscopic, and anti-bump sensors, safety and efficiency are paramount. Its Japanese Nidec motor ensures reliable performance, while the ability to overcome high steps of up to 18mm underscores its versatility.

Customize your cleaning experience with ease, thanks to adjustable 3 electronic water flow modes and 3 suction power settings. With voice control compatibility with leading assistants such as Alexa, Siri, and Google Assistant, managing your cleaning routine has never been more effortless.

Robotic Vacuum Cleaner features an enlarged 600ml dust tank and a 350ml water tank, along with up to 130 minutes of cleaning time. This ensures extended cleaning sessions without interruptions, providing efficient and convenient maintenance of your living space.

Garment Steamers

AENO GS1 | GS3

Experience hassle-free steaming with maneuverable 45° flexible while its lightweight and compact design make it perfect for travel.

Get started quickly with a 35-second heat-up time and enjoy up to 16 minutes of continuous use without refilling. With an enlarged width steam plate, achieve more steam coverage with fewer moves.

Refill with ease due the removable water tank. The silicone lid provides leakage protection for added safety.

Ideal for difficult-to-iron items like evening dresses, shirts, and draperies, the steamer offers three steam modes for different fabric types. Its electronic pump system allows for precise steam control.

With convenient LED indication for steam mode and readiness, you'll always know when it's good to go. Plus, included accessories like a measuring cup and cleaning brush make maintenance comfortable.
