Dental Irrigators

Dental Irrigator

AENO DI3

AENO DI3 – Professional Oral Care Made Simple

Achieve a deep, dentist-level clean at home with the AENO DI3 Dental Irrigator. Designed for the whole family, the DI3 features 5 flossing modes – from gentle for kids to high-intensity for deep cleaning. Its memory function saves your preferred mode, while the 360° rotating magnetic nozzle ensures effortless reach to every corner.

Perfect for braces and implants, the DI3 prevents plaque buildup and cleans hard-to-reach areas. The 240 ml removable tank offers easy refills and up to 100 days of use per charge. Plus, the built-in UV light keeps it sanitized for maximum hygiene.

Take your oral care to the next level – AENO DI3 delivers precision, power, and convenience for brighter, healthier smiles.

Dental Irrigator **AENO DI3**

Model **EAN**

Hair Dryer

Hair Dryer **AENO HD3**

AENO HD3 – Perfect Styling with Advanced Hair Care

Experience fast, professional-level styling with the AENO HD3 Hair Dryer – designed to dry, protect, and enhance your hair. Powered by DynamicHeat technology, it delivers airflow speeds up to 100 km/h for rapid drying, while the NTC sensor ensures intelligent temperature control to prevent heat damage and maintain healthy, shiny hair.

Tame frizz and boost shine with ionic technology, while the 5 magnetic nozzles, including a Coanda effect nozzle and diffuser, let you create any style with ease. Weighing just 570 g, the HD3 is lightweight and easy to handle, making it perfect for all hair types.

Customize your routine with 10 use scenarios and monitor settings on the LED display. A professional brushless motor ensures durability and quiet operation, while the energy-efficient 1500 W power guarantees outstanding performance.

Complete with a 2m cord, quick-release filter, and travel bag, the AENO HD3 delivers salon-quality results at home – effortlessly and safely.

Hair Dryer **AENO HD4**

AENO HD4 – Precision Styling with Hair Protection

The AENO HD4 Hair Dryer delivers powerful, salon-quality results with advanced care for your hair. With DynamicHeat technology and airflow speeds up to 100 km/h, it ensures fast drying while maintaining hair health. The intelligent NTC sensor controls temperature, preventing heat damage and keeping hair soft and shiny.

Frizz is minimized, and shine is enhanced through ionic technology, while the 360° magnetic nozzle allows for quick adjustments and easy styling. Lightweight at 570 g, the HD4 is comfortable to use for all hair types and features 10 customizable settings for versatile styling.

A professional brushless motor provides durability and quiet performance, while the 1500 W energy-efficient design ensures powerful results. The quick-release filter makes cleaning simple, and the 2m cord offers flexibility. Safety is prioritized with auto power-off overheat protection.

Complete with a magnetic concentrator and travel bag, the AENO HD4 is the ultimate tool for effortless styling and healthy, beautiful hair.

Hair Dryer

AENO HD1

Engineered for fast, efficient styling with a powerful airflow of 100 km/h to ensure quick drying times without compromising hair health. Equipped with an intelligent thermo-control NTC sensor, it provides safe, precise heat management to protect your hair. Experience less frizz and more shine thanks to its advanced ionic technology, leaving your hair smooth and lustrous. Effortlessly switch styles with quick-change 360° magnetic nozzles, designed for convenience and versatility. Weighing just 550g, it's your go-to for lightweight handling.

Tailor your drying experience with 9 customizable scenarios, including 3 heating modes and 3 speeds for each mode, making it suitable for all hair types. Maintenance is a breeze with the quick-release filter for easy cleaning. Powered by a durable and quiet brushless motor, it's built to last. Features include convenient LED indication, energy efficiency at 1500W, and overheat protection for peace of mind. Each HD1 Hair Dryer comes with a diffuser, concentrator, and travel bag, ensuring you have everything you need for perfect hair, anywhere.

Intelligent thermo-control NTC sensor

Negative Temperature Coefficient is a temperature sensor whose resistance drops as the temperature rises.

How does an NTC thermo-sensor work? The sensor is located in the air stream of the hair dryer. As it gets hotter, the resistance of the sensor drops. The hair dryer reads the change in resistance and adjusts the temperature of the heating element. This keeps the airflow at the required safe temperature.

CREATING THE FUTURE

Smart Body Scales

Smart Body Scales

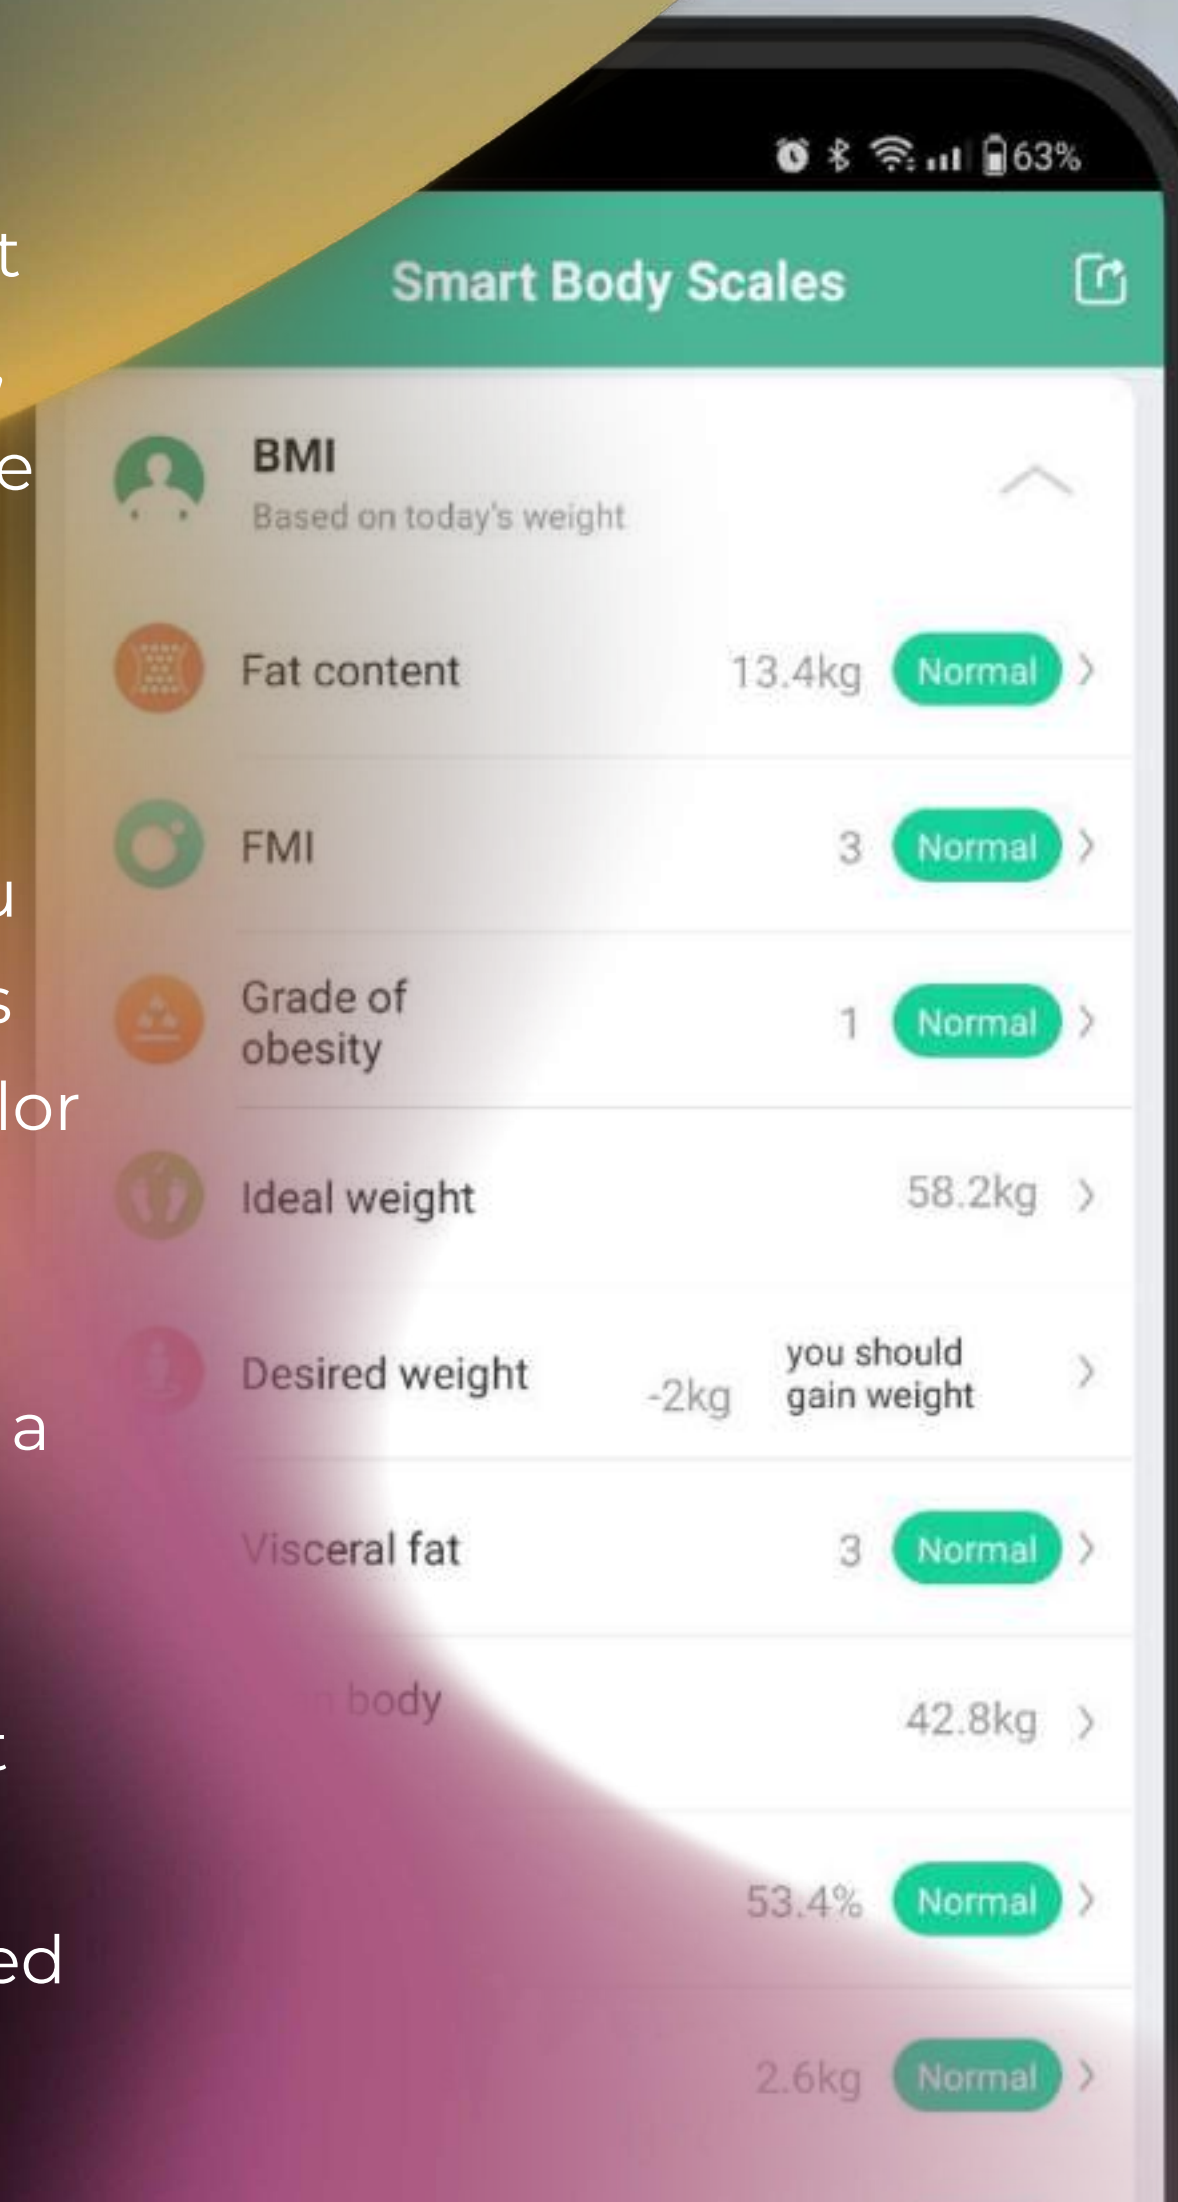

AENO BS1S

Smart Body Scales BS1S connects seamlessly to the user-friendly AENO app, making it simple to sync your data and access detailed health insights. Track 15 essential body metrics, including Weight, BMI, Body Fat Rate, Muscle Mass, Body Fat Index, Fat Mass, Obesity Level, Ideal Weight, Weight Control, Visceral Fat Index, Weight without Fat, Body Water, Bone Mass, Protein Rate, BMR, and Metabolic Age. This holistic analysis empowers you to make informed decisions about your health and wellness.

Stay motivated with the dynamic weight change chart, which allows you to visualize your progress over time. The automated metabolism analysis feature provides insights into your body's metabolic rate, helping you tailor your diet and exercise routines for optimal results.

Designed for all body types, the AENO Smart Body Scales BS1S supports a high load capacity of up to 180kg. Its high-precision sensors measure in 100g increments, ensuring accurate and consistent readings every time. The scale accommodates up to 10 user profiles plus one guest, making it perfect for families and shared living spaces.

The large, bright LED display offers exceptional clarity, while the tempered ITO glass surface is easy to clean and maintain.

Advanced Body Composition Analyzer: 15 Metrics **AENO BSIS**

BMI (Body Mass Index) Assesses weight relative to height to categorize underweight, normal weight, overweight, and obesity, indicating potential health risks.

Body Fat Rate Measures the percentage of fat in your body, crucial for assessing fitness levels and body composition.

Muscle Mass Indicates the amount of muscle, essential for evaluating strength and distinguishing between weight gained from fat and muscle.

Body Fat Index Quantifies fat content, assisting in making informed diet and exercise decisions for a healthy balance.

Fat Mass Measures total body fat weight, crucial for managing weight and overall health to prevent health issues.

Obesity Level Identifies if you are within a healthy range, overweight, or obese, guiding lifestyle changes to improve health.

Ideal Weight Target weight range based on height, gender, and age, helping set realistic and healthy weight goals.

Weight Control Shows the weight needed to gain or lose to reach your ideal weight, ensuring effective weight management plans.

Visceral Fat Index Measures fat around internal organs, associated with risks of serious health conditions like heart disease.

Weight without Fat Indicates lean body mass, helping understand the effectiveness of fitness routines and maintaining a healthy balance.

Body Water Measures body water percentage, crucial for hydration, digestion, muscle function, and skin health.

Bone Mass Measures bone weight, important for assessing bone health and preventing conditions like osteoporosis.

Protein Rate Indicates body protein percentage, essential for tissue repair and muscle growth, especially for active individuals.

BMR (Basal Metabolic Rate) Measures calories needed for basic functions at rest, aiding in tailoring diet and exercise plans.

Metabolic Age Compares BMR to average for your age group, providing insights into metabolic health and areas for improvement.

Hair Styler & Dryer

Hair Styler & Dryer **AENO HSI**

The AENO Hair Styler & Dryer HSI is a powerful, versatile styling tool designed to meet all your hair care needs in one device. With its unique twist mechanism, it transforms from a high-performance dryer to a professional-grade styler, providing flexibility for a wide range of hairstyles. Offering 13 customizable settings, the HSI is suitable for all hair types, from fine to thick, straight to curly, ensuring fast drying and precise styling every time.

The built-in ionization technology reduces frizz and enhances shine, leaving your hair smooth, glossy, and healthy-looking. The intelligent thermo-control system with an NTC sensor keeps the temperature in check, preventing overheating and protecting your hair from damage. Equipped with a quiet, powerful brushless motor, the HSI delivers efficient drying while maintaining a low noise level for a peaceful styling experience.

Lightweight at just 440g, the HSI is comfortable to use for long periods, and its quick-release magnetic filter makes cleaning a breeze. With 7 interchangeable nozzles including volumizing, smoothing, curling, and styling concentrators this styler gives you the versatility to create everything from sleek, straight looks to voluminous curls. The included travel bag ensures easy storage and portability, making it perfect for both home use and on-the-go styling.

Versatile: all hair types & hairstyles

Volumizing Brush: designed to add volume and body to your hair, perfect for creating fuller, bouncier styles.

Curling Barrel (2 pcs with different direction): ideal for creating various curl styles, from loose waves to defined curls.

Firm Smoothing Brush: designed to control and smooth out thicker or coarse hair, providing a sleek, polished finish.

Soft Smoothing Brush: perfect for finer hair types, offering a gentle touch to reduce frizz and create a smooth, shiny finish.

Pre-styling Dryer: for quickly drying hair to a manageable level, preparing it for the next stage of styling.

Styling Concentrator: directs focused airflow for precise styling, perfect for straightening or defining sections of hair.
